Dear Harold,

Here is the microfilm order from the Archives which we have been discussing. Unfortunately, it is even smaller than I expected - about 160 pages. I hope you can get it printed out fairly quickly. You can have Bud make copies of whatever you find interesting for himself, you, and Gary, although I don't think there is that much exceptional material. (Most of the first 75 pp. relate to leads Jim Schmitt has been working on.) I will expect to get the film and the <u>original</u> printout back within a few weeks; if any problems come up, let me know.

More later; I am just recovering from a nasty strep throat.

Paul
